## EDUCATION

- **Centro de Bachillerato Tecnológico Industrial y de Servicios (CBTis) No. 128** Juárez, México  
Chemical Laboratory Technician — Professional License [14741376] / GPA: 3.98 2017 – 2020
  - Strong foundation in chemical analysis and laboratory safety protocols. in handling reagents, risk control, and applying standardized procedures.
- **Universidad Autónoma de Ciudad Juárez (UACJ)** Juárez, México  
Aeronautical Engineering — Professional License [14741356] / GPA: 3.87 2020 – 2024
  - Focused on research and continuous improvement, passionate about technology and process optimization in the aerospace industry.
  - Committed to innovation, applying engineering principles to develop efficient and safe solutions.
  - Dedicated to lifelong learning, integrating advanced knowledge in materials, aerodynamics, and quality control.

## ACADEMIC ACHIEVEMENTS & PARTICIPATION

- **Co-author of scientific publications:**
  - Study of Al7075 Localized Corrosion Inhibition by a SiO Superhydrophobic Coating Employing an Electrochemical Noise Technique - **DOI:** 10.3390/coatings15020131
  - Electrochemical Corrosion Behavior of SiO Superhydrophobic Inhibitor in Al7075 - **DOI:** 10.3390/coatings15091064

## PROFESSIONAL EXPERIENCE

- **Bombardier Recreational Products (BRP)** Juárez, México  
Material Planner / Professional Internship Dec 2023 – Aug 2024
  - Coordinated receipts and shipments from suppliers.
  - Managed production planning and inventory analysis.
  - Organized meetings for engineering changes and supply chain improvements.
  - Tools: SAP, Microsoft Office (Excel, VBA Macros, Power BI).
- **APTIV** Juárez, México  
Production Control Specialist Technician / Permanent Contract Nov 2024 – Present
  - Led coordination of pilot and pre-production parts, managing shipments, quantity planning, and delivery negotiations to ensure launch readiness and production continuity.
  - Coordinated engineering changes during serial production, aligning materials planning, logistics flows, and manufacturing execution.
  - Developed analytical dashboards using Power BI and advanced Excel to support inventory management, material flow visibility, and production control KPIs.
  - Supported logistics quotation and commercial activities for global OEM customers (Hyundai, Kia, Ford, Stellantis, Mercedes-Benz, GM, Tesla).
  - Managed and validated logistics investments exceeding \$20M USD, collaborating with regional and global Sales, Finance, and PC&L teams to align cash flow and capital expenditure planning for program launches.
  - Tools: Excel (VBA Macros), Power BI, SAP, MGO, GM Portal.

## CERTIFICATIONS

- **Six Sigma:** Universidad Autónoma de Ciudad Juárez
- **Corrosion Engineering and Protection Methods:** Universidad Autónoma de Nuevo León
- **Innovating with Google Cloud:** Coursera - Certificate
- **Introduction to Data Analytics:** Coursera - Certificate
- **Logistics Excellence:** Coursera - Certificate

## TECHNICAL SKILLS

**Programming and Software:** LaTeX, Python, Microsoft Office Suite, Excel (Visual Basic), Minitab, OpenFoam, SQL, SolidWorks, ANSYS, ABAQUS

**\*Languages:** Spanish (Native), English (B2), French (B1) Mandarin Chinese (A1)
